

Creswell Richardson
POWERING INDUSTRY

Creswell Industrial Supply, Inc. was founded in Chattanooga in 1970 by Bob Creswell. Richardson Electric was founded the following year by Cave Richardson. On April 13, 2009, the two companies joined together and opened the doors as as “Creswell Richardson”. The merger of the

two companies provides customers with a one-stop shop for bearings, power transmission equipment, safety products, material handling equipment, electrical components, engineering services and automation control devices, and is known locally, nationally, and internationally as a leading distributor of these items, as well as, general industrial supplies. Headquartered in Chattanooga, Creswell Richardson serves customers throughout the United States,

helped us attain our leadership position in this industry. Creswell ETO Systems provides engineered to order solutions including capital project RFQs and operational productivity assessment. Tech Craft Automation, the company’s custom control system design and integration group, handles everything from sys-tem startup to program-

24/7 with an after hours service as well. For over forty years this company has been striving to work diligently to give more than the customers expect and supply quality merchandise when or before needed. “ We are known as the premier supplier and the best one-stop shop in our area for parts, service, and engineering.”

Creswell Richardson cares about the Chattanooga community and gives back when and where it can. CR is a

but also supplies parts and service around the globe.

“Our customers represent almost every type of manufacturing activity,” states Rob Creswell, president of Creswell Richardson. “We’re supplying products from the world’s top manufacturers to people in the textile, automotive, food and beverage, medical and research field, utility companies and other various industries”.

“In addition, two other

companies in our family have

ming and training”. Within the Creswell Richardson family of services, any part of customized electrical, power transmission and mechanical engineering solutions are available to those companies in need of such services. From the Creswell Richardson campus, located at 900 Appling Street, you will find a knowledgeable and helpful staff ready to assist with your problem area. And that is night or day as Creswell Richardson is easy to reach

loyal and active member of the Chattanooga Chamber of Commerce, support several local charities, promotes a healthy “family” work environment and recycles general office and shipping materials to avoid waste and neglect. Creswell Richardson, a great example of Chattanooga business and still growing.
